THE LOTUS CHRONICLES
Rob Siegel 2020-09-15
In 2013, Rob Siegel (a.k.a. “The Hack Mechanic”) wandered waaaaay outside of his German car comfort zone and blew the advance from his first book on a car that captivated him as an adolescent—a 1974 Lotus Europa Twin Cam Special. The car hadn’t been on the road since 1979, had a seized engine, and was purchased sight-unseen, but it was complete and had only 24,000 miles on it. In the week after it arrived, Rob feverishly ripped out the drivetrain, but the project soon ran into molasses due to the fact that all options for rebuilding or replacing the low-production Lotus-Ford Twin Cam engine would’ve cost more than he’d paid for the car. It was six years before the car was running, during which Rob lost his job and changed careers, necessitating that if work on the Lotus proceeded at all, costs needed to be relentlessly contained. All of this was chronicled on Facebook in a series of posts titled “The Lotus Chronicles,” in which Rob’s friends and acquaintances—the Hack Mechanic faithful—chimed in on the process, offering advice, encouragement, ridicule, scorn, every Lucas joke known to man and woman, and insight on why Lotus really does stand for “Lots of trouble, usually serious.”The Lotus Chronicles is a collection of those posts, woven together with sections providing context and perspective. It’s about passion, perseverance, the balance between “doing it right” and getting ‘er done, what it takes to drag a project across the finish line, and coming to finally understand an offhand comment a man made to Rob when he first saw that Europa when he was 13 years old: “A car like that, you can get sex out of.”

QUATTRO
Jeremy Walton 2020-09-15
The word ‘Quattro’, chosen by Audi for its pioneering high-performance four-wheel-drive cars, immediately captures glamour and excitement in the minds of all motorsport enthusiasts. This book, written by a leading journalist and Quattro devotee, explores 24 years of factory-prepared and factory-supported Quattros in motorsport, from 1980 to 2004. It is a tale that extends from rough rally stages to race tracks, from pine-fringed ice trails in the depths of European winters to the shimmering heat haze and melting asphalt of Texas street racing. Along the way, it explains how Quattros collected four world rally championships, five American driver/manufacturer crowns and a single-year haul of seven international touring car titles, plus numerous other honours. With the five-cylinder turbocharged Quattro in its original form, rallying in the early years yielded numerous wins, most of all in 1982, when seven victories in 11 world championship rallies brought the first title. With the short-wheelbase Sport added to Audi’s armoury, 1984 became an all-action, all-conquering rallying season with two more world titles won, for drivers (Stig Blomqvist) and manufacturers. Three stunning Pike’s Peak wins were achieved in America in successive years, for Michele Mouton (1985), Bobby Unser (1986) and Walter Röhrl (1987). Starting with double championships for the 200 Quattro in TransAm (1988) and the 90 Quattro in IMSA (1989), racing success unfolded in America. Exuberant Hans Stuck was the star driver, but consistent team-mate Hurley Haywood captured that 1988 title. Touring car campaigns during the 1990s brought huge success, starting with fearsome V8 Quattro ‘racing limos’ in Germany. Global achievements followed with A4 Quattros in many national Super Touring series throughout Europe and in Australia, including Frank Biela’s 1996 title-winning campaign in Britain. Audi continued to win on track in the new millennium as race versions of the S4 and RS6 captured five SCCA GT Championship titles in America.

Dennis Glover 2020-11-03
We’re told that the future will be brighter. But what if human happiness really lies in the past? Hobart, 2022: A city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city’s residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA’s owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He’s going to defeat technology’s dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. ‘Like Orwell, of whom he has written so brilliantly, Dennis Glover’s work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times.’ —Don Watson ‘Savagely hilarious and unlike anything else you’ll read this year. It boils with the anger of the present moment.’ —Rohan Wilson
