This causes swelling, most commonly in an arm or leg. Lymph normally does an important job for your body. It carries foreign material and bacteria away from your skin and body tissues, and it circulates infection-fighting cells that are part of your immune system. Lymph flows slowly through the network of vessels called your lymphatic system.Breast cancer treatment is the most common cause of lymphedema in the United States. Worldwide, it most often occurs due to filariasis (a parasite infection). Experts have called lymphedema "one of the most poorly understood, relatively underestimated, and least researched complications of cancer or its treatment." There are other possible causes of primary lymphedema, including obesity and postoperative weight gain.What is it exactly? It is a condition resulting from impaired flow of the lymphatic system. You can often recognize someone is struggling with lymphedema if a part or all of their entire arm or leg, including the fingers and toes, are visually very swollen. Is lymphedema dangerous? Left untreated, it can result in frequent infections, irreversible changes to the skin, decreased mobility of the affected limb(s) and an overall worse quality of life.Can anything help this condition? There's actually a great deal of overlap between conventional and natural lymphedema treatment, including straight forward yet majorly impactful recommendations including regular exercise, deep breathing and a healing whole foods diet.

**7-Day Menu Planner: Mid-Winter Repasts** Susan Nicholson 2015-09-22 Welcome to the 7-Day Menu Planner. Mid-Winter menus start with Valentine's Day when a bit of romance dominates the menu and ends with Easter, a special time to gather the family together. In between, there are five more weeks of easy menus, including a photo almost every week along with a shopping list for every day. Planning menus will change your life (for the better) forever. You won't have that miserable felling as you stand in front of your open refrigerator and wonder "what's for dinner?" To solve the dinner-dilemma, follow the menus, use the shopping list, and cook! Menu planning is not brain surgery or rocket science. All you need is a desire to eat healthier, save money, reduce stress and enjoy delicious meals with your family. You will also be the powerful master menu-planner for your household. Most of us don't really hate to cook, we hate to plan what to cook. Just follow along with the easy menus and you're on your way.
