Emmanuel's Book Pat Rodegast 2011-03-23 Here is the revealing underground classic, a work that stands beside the "Seth" books as a delightful and invaluable guide to our inner spirit and our outer world. Emmanuel speaks to us through Pat Rodegast and shares his wisdom and insights on all aspects of life. Beautifully written and illustrated, Emmanuel's Book I is to be treasured, enjoyed and passed on to a friend. Emmanuel says: "The gifts I wish to give you are my deepest love, the safety of truth, the wisdom of the universe and the reality of God The issue of whether there is a Greater Reality or not, for me at least, has been settled. I know that there is. So I will speak to you from the knowing that I possess." Ram Dass, in the introduction, says: "Being with Emmanuel one comes to appreciate the vast evolutionary context in which our lives are being lived And at each moment we are at just the right place in the journey. As Emmanuel points out, 'Who you are is a necessary step to being who you will be.'"

Archaeological Artefacts as Material Culture Linda Hurcombe 2014-05-12 This book is an introduction to the study of artefacts, setting them in a social context rather than using a purely scientific approach. Drawing on a range of different cultures and extensively illustrated, *Archaeological Artefacts and Material Culture* covers everything from recovery strategies and recording procedures to interpretation through typology, ethnography and experiment, and every type of material including wood, fibers, bones, hides and adhesives, stone, clay, and metals. With over seventy illustrations with almost fifty in full colour, this book not only provides the tools an archaeologist will need to interpret past societies from their artefacts, but also a keen appreciation of the beauty and tactility involved in working with these fascinating objects. This is a book no archaeologist should be without, but it will also appeal to anybody interested in the interaction between people and objects.

Pontiac Fiero 1984-1988 -Performance Portfolio R.M. Clarke 2000-12-03 The original Fiero was no ball of fire with the Iron Duke 4-cylinder engine; enthusiasts had to wait for the V6 for any real performance. The style and configuration was inspired by the Fiat X/19. The Fiero pioneered new production technology in the form of a steel space frame clothed with bolt-on plastic panels. Quality control was inconsistent with some customers feeling as if they were doing on the road development for the company. Production was stopped after just five years, just as it was just getting into its stride. This is a book of contemporary road and comparison tests, new model introductions, specification and technical data, driving impressions, owner's survey, racing, history, buying second hand. Models covered include:- 2M4 SE, SE, Pfaff Turbo, GT, GT V6, GTU, Formula.

Consuming Habits Jordan Goodman 2014-04-08 Covering a wide range of substances, including opium, cocaine, coffee, tobacco, kola, and betelnut, from prehistory to the present day, this new edition has been extensively updated, with an updated bibliography and two new chapters on cannabis and khat. Consuming Habits is the perfect companion for all those interested in how different cultures have defined drugs across the ages. Psychoactive substances have been central to the formation of civilizations, the definition of cultural identities, and the growth of the world economy. The labelling of these substances as 'legal' or 'illegal' has diverted attention away from understanding their important cultural and historical role. This collection explores the rich analytical category of psychoactive substances from challenging historical and anthropological perspectives.

first century. With cutting-edge updates, illustrative real-world examples, and new study tools for students, this text is a necessity for both undergraduate and graduate courses in criminology.
