Fatima's Great Outdoors

Ambreen Tariq 2021-03-30 An immigrant family embarks on their first camping trip in the Midwest in this lively picture book by Ambreen Tariq, outdoors activist and founder of @BrownPeopleCamping Fatima Khazi is excited for the weekend. Her family is headed to a local state park for their first camping trip! The school week might not have gone as planned, but outdoors, Fatima can achieve anything. She sets up a tent with her father, builds a fire with her mother, and survives an eight-legged mutant spider (a daddy longlegs with an impressive shadow) with her sister. At the end of an adventurous day, the family snuggles inside one big tent, serenaded by the sounds of the forest. The thought of leaving the magic of the

outdoors tugs at Fatima's heart, but her sister reminds her that they can keep the memory alive through stories--and they can always daydream about what their next camping trip will look like. Ambreen Tariq's picture book debut, with cheerful illustrations by Stevie Lewis, is a rollicking family adventure, a love letter to the outdoors, and a reminder that public land belongs to all of us.

The Art of Getting Lost

Brendan Leonard 2018-11-01

The Art of Getting Lost will illuminate the details of dream trips, and inspiring readers to understand that adventure is not out of reach. Most of us face a couple of obstacles when it comes to living our Walter Mitty-esque adventure dreams: ideas of what to do, and concrete knowledge of how long those ideas will take. It's a long way from talking to some guy at the bar about his Grand Canyon Raft trip to going home and Googling a synopsis of how to make it happen, and then clicking around a guide company's website to find out if it takes three days or 30. But it

won't be hard to flip through this book and get inspired.

Outdoor Adventure and Social Theory

Elizabeth C.J.

Pike 2013-04-12 Adventure and outdoor sports - from rock climbing to freestyle kayaking - are a modern social phenomenon that can tell us much about the relationship between sport, culture and contemporary society. In this engaging new introductory text, adventure sports are used to illustrate key concepts in social theory and to demonstrate why an understanding of social theory is essential for any student taking a course in sport, adventure, or outdoor education. Each chapter in the book introduces a key 'classical' or modern social theorist, including Marx, Durkheim, Weber and Elias, or a universal topic or issue in social theory, such as sustainability, commodification or identity. Within each of those chapters the theorist or topic is brought to life through case studies of adventurous activities and lived experiences, helping the reader to connect their own sporting and adventurous interests with the frameworks we use to understand wider culture and

society. Concise and full of cutting-edge contemporary examples, *Outdoor Adventure and Social Theory* is the perfect companion for any module on the sociology of sport, adventure or outdoor recreation.

The Art of Stillness Pico Iyer
2014-11-04 A follow up to Pico Iyer's essay "The Joy of Quiet," *The Art of Stillness* considers the unexpected adventure of staying put and reveals a counterintuitive truth: The more ways we have to connect, the more we seem desperate to unplug. Why might a lifelong traveler like Pico Iyer, who has journeyed from Easter Island to Ethiopia, Cuba to Kathmandu, think that sitting quietly in a room might be the ultimate adventure? Because in our madly accelerating world, our lives are crowded, chaotic and noisy. There's never been a greater need to slow down, tune out and give ourselves permission to be still. In *The Art of Stillness*—a TED Books release—Iyer investigate the lives of people who have made a life seeking stillness: from

Matthieu Ricard, a Frenchman with a PhD in molecular biology who left a promising scientific career to become a Tibetan monk, to revered singer-songwriter Leonard Cohen, who traded the pleasures of the senses for several years of living the near-silent life of meditation as a Zen monk. Iyer also draws on his own experiences as a travel writer to explore why advances in technology are making us more likely to retreat. He reflects that this is perhaps the reason why many people—even those with no religious commitment—seem to be turning to yoga, or meditation, or seeking silent retreats. These aren't New Age fads so much as ways to rediscover the wisdom of an earlier age. Growing trends like observing an "Internet Sabbath"—turning off online connections from Friday night to Monday morning—highlight how increasingly desperate many of us are to unplug and bring stillness into our lives. *The Art of Stillness* paints a picture of why so many—from Marcel

Proust to Mahatma Gandhi to Emily Dickinson—have found richness in stillness. Ultimately, Iyer shows that, in this age of constant movement and connectedness, perhaps staying in one place is a more exciting prospect, and a greater necessity than ever before. In 2013, Pico Iyer gave a blockbuster TED Talk. This lyrical and inspiring book expands on a new idea, offering a way forward for all those feeling affected by the frenetic pace of our modern world.

An Angler's Reminiscences
Charles Hallock 2015-06-13
Excerpt from *An Angler's
Reminiscences: A Record of
Sport, Travel, and Adventure*
Charles Hallock's literary
career, covering a period of
sixty years - beginning with the
editorship of a college paper,
"The Scorpion," at Amherst, in
1852 - has been remarkable for
wide range, and thorough
mastery of each subject.
Although angling has always
been his favorite recreation his
active participation in other
manly outdoor sports is
indicated by the title, "Dean of
American Sportsmen,"

conferred by prominent
brothers of the guild in
recognition of his ability as a
practical exponent of healthful
pastimes, and as an author - an
acknowledged authority - in this
branch of literature. Turning to
the brief autobiography in this
volume - a classic in its special
line - the reader will find some
of the salient features of a life
work great in achievement,
varied in scope - from scientific
research to current comment
on the topics of the day; from
sojourning in the Sunny South
to pioneer jaunts in the wild
West and to far-off Alaska - yet
interspersed always with
pursuit of the pastimes he
loved, with rod and gun. His
recreations - like those of
"Christopher North" - furnished
material for delightful sketches,
standard works, scientific
essays. His companions were
men of action - the hardy
voyageurs, at home in primitive
craft on wild waters, or on foot
along wild trails; ardent anglers
seeking adventurous sport on
salmon rivers and trout streams
far from routes of ordinary
tourists; scholars and scientists

delving deep in the study of animated nature. That Charles Hallock is and has long been a recognized force, an accepted authority in matters pertaining to fish and fishing, science and travel, is evidenced by the fact that he is an active or honorary member of no less than fifty-seven clubs and associations, many of these being organizations of national and some of international scope. His copyrighted books are seventeen in number, and his various articles in the magazines, sportsmen's journals and daily press would, if collected in library form, fill fifty volumes of absorbing interest. The condensed summary, given elsewhere in this work, records the remarkable fact that outside of newspaper work his occupations and important experiments reached a total of sixty-seven, while his hairbreadth escapes numbered twenty-eight. As an editor, particularly in his favorite field, he possessed the qualifications to acquire the full measure of success. His literary style was

here shown in its versatile character, its vigor, and perfect command of the English language. A valuable adjunct was his world-wide acquaintance with men of mark in sportsmanship and the world of letters. Outdoors in the Southwest

Andrew Gulliford 2014-04-18

More college students than ever are majoring in Outdoor Recreation, Outdoor Education, or Adventure Education, but fewer and fewer Americans spend any time in thoughtful, respectful engagement with wilderness. While many young people may think of adrenaline-laced extreme sports as prime outdoor activities, with Outdoors in the Southwest,

Andrew Gulliford seeks to promote appreciation for and discussion of the wild landscapes where those sports are played. Advocating an outdoor ethic based on curiosity, cooperation, humility, and ecological literacy, this essay collection features selections by renowned southwestern writers including Terry Tempest Williams, Edward Abbey, Craig Childs, and Barbara Kingsolver, as well as scholars, experienced guides, and river rats. Essays explain the necessity of nature in the digital age, recount rafting adventures, and reflect on the psychological effects of expeditions. True-life cautionary tales tell of encounters with nearly disastrous flash floods, 900-foot falls, and lightning strikes. The final chapter describes the work of Great Old Broads for Wilderness, the Colorado Fourteeners Initiative, and other exemplars of “wilderness tithing”—giving back to public lands through volunteering, stewardship, and eco-advocacy. Addressing the evolution of

public land policy, the meaning of wilderness, and the importance of environmental protection, this collection serves as an intellectual guidebook not just for students but for travelers and anyone curious about the changing landscape of the West.

The Adventure Gap James Edward Mills 2014-09-24 •

Chronicles the first all-African American summit attempt on Denali, the highest point in North America • Part adventure story, part history, and part argument for the importance of inspiring future generations to value nature The nation's wild places—from national and state parks to national forests, preserves, and wilderness areas—belong to all Americans. But not all of us use these resources equally. Minority populations are much less likely to seek recreation, adventure, and solace in our wilderness spaces. It's a difference that African American author James Mills addresses in his new book, *The Adventure Gap: Changing the Face of the Outdoors*. Bridging the so-called "adventure gap" requires role models who can inspire the uninitiated to experience and enjoy wild places. Once new visitors are there, a love affair often follows. This is important because as our country grows increasingly multicultural, our natural legacy will need the devotion of people of all races and ethnicities to steward its

care. In 2013, the first all-African American team of climbers, sponsored by the National Outdoor Leadership School (NOLS), challenged themselves on North America's highest point, the dangerous and forbidding Denali, in Alaska. Mills uses Expedition Denali and its team members' adventures as a jumping-off point to explore how minority populations view their place in wild environments and to share the stories of those who have already achieved significant accomplishments in outdoor adventures—from Mathew Henson, a Black explorer who stood with Peary at the North Pole, to Kai Lightner, a teenage sport climber currently winning national competitions. The goal of the expedition, and now the book, is to inspire minority communities to look outdoors for experiences that will enrich their lives, and to encourage them toward greater environmental stewardship.

Matt Berry 2015-03-24

Coaching adventure sports is part of the core work of many

adventure educators but has been largely neglected in the adventure studies literature. This is the first book to link contemporary sports coaching science with adventure sports practice. The book covers key topics such as: Skill acquisition and skill development Models of learning and teaching Performance analysis Tactics and decision-making Training principles Mental skills techniques Goal setting and progression Risk management Each chapter contains applied examples from a range of adventure sports, including mountaineering, rock climbing, canoeing, kayaking, surfing, and winter sport, as well as practical coaching techniques and a guide to further reading. Written by a team of authors

with wide experience of coaching, teaching, researching and high performance participation in adventure sports, this book is invaluable reading for any student or practitioner with an interest in adventure, outdoor education, sports coaching or lifestyle sport.
