Emancipation's Daughters Riché Richardson 2020-12-04 In *Emancipation's Daughters*, Riché Richardson examines iconic black women leaders who have contested racial stereotypes and constructed new national narratives of black womanhood in the United States. Drawing on literary texts and cultural representations, Richardson shows how five emblematic black women—Mary McLeod Bethune, Rosa Parks, Condoleezza Rice, Michelle Obama, and Beyoncé—have challenged white-centered definitions of American identity. By using the rhetoric of motherhood and focusing on families and children, these leaders have defied racist images of black women, such as the mammy or the welfare queen, and rewritten scripts of femininity designed to exclude black women from civic participation. Richardson shows that these women's status as national icons was central to reconstructing black womanhood in ways that moved beyond dominant stereotypes. However, these formulations are often premised on heteronormativity and exclude black queer and trans women. Throughout *Emancipation's Daughters*, Richardson reveals new possibilities for inclusive models of blackness, national femininity, and democracy.

*The Diagrams of Architecture* Mark Garcia 2010-03 Since the 1980s, the diagram has become a preferred method for researching, communicating, theorising and making architectural designs, ideas and projects. Thus the rise of the diagram, as opposed to the model or the drawing, is the one of the most significant new developments in the process of design in the late 20th and early 21st centuries. *Diagrams of Architecture* is the first anthology to represent - through texts and diagrams - the histories, theories and futures of architecture through the diagram. Spanning the Pre-historic to the Parametric, *Diagrams of Architecture* illustrates over 250 diagrams and brings together 26 previously published and newly commissioned essays from leading international academics, architects, theorists and professional experts. These combine to define the past and future of the diagram's discourse. Prefaced with a critical introduction by Mark Garcia, each text investigates a central concept or dimension of the diagram ranging from socio-cultural studies, science, philosophy, technology, CAD/CAM, computing and cyberspace and virtual/digital design to methodology, environment/sustainability and phenomenological, poetic and art architecture; as well as interior, urban, engineering, interactive and landscape design. The first critical, multidisciplinary book on the history, theory and futures of the architectural diagram. Includes seminal articles on the diagram from

the history and theory of architecture such as those by Peter Eisenman, Sanford Kwinter, MVRDV, Neil Spiller, Lars Spuybroek, UN Studio and Anthony Vidler. Features 14 newly commissioned articles by leading architects and theorists, including Charles Jencks, Hanif Kara, Patrik Schumacher, Neil Spiller, Leon van Schaik and Alejandro Zaera-Polo and two new interviews with Will Alsop and Bernard Tschumi. Includes a full-colour critical collection of over 250 of the most significant and original diagrams, many of which are previously unpublished, in the history of architecture from around the world.

**Kasher in the Rye** Moshe Kasher 2012-03-28  
Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Wholesome New England recipes for chowders and fish dishes lead the way, with instructions for preparing sweets occupying fully half the book. The cost of the book's original publication was offset by paid advertisements placed by candidates for local office throughout the state, as well as ads for a handful of retailers, wholesalers, and products, including this for White House Coffee - "'All Democrats use it, and most Republicans, because it is the best.'" Castle Tucker, a Regency-style mansion built in 1807 by Judge Silas Lee in Wiscasset Maine, was purchased by Captain Richard Tucker in 1858.

He and his wife raised five children in the home. The house and its contents were preserved by his daughter Jane, and later her niece. Today, Castle Tucker is a Historic New England property and is open to the public from June to October.
